In the Specification:

Please delete paragraph [0035] and insert in place thereof the following replacement paragraph:

[0001] If, however, in step 308, a determination is made that the grant size is not greater than the frame size, then it is determined that the frame has not been completely sent, and the process continues to step 310. In step 310, the grant count is set to the frame size minus the grant count. In step 311, a determination is made as to whether or not a grant has been received. If ~~not~~ no grant has been received, the process remains at step 311. However, if a grant has been received, the process continues to step 312, where the grant count is decremented. From step 312, the process continues to step 313, where a determination is made as to whether or not the grant count is equal to zero. If the grant count is not equal to zero, the process returns to step 311. However, if the grant count is equal to zero, the process proceeds to step 306.
